📞 123-456-7890 — ✉ USER@domain.tld — 🔗 linkedin.com/in/USER — 🐙 github.com/USER

Summary — Simplified version of a monstrosity that I built back in college using current best practices.

Skills

Automation	SaltStack, Ansible, Chef, Puppet	**OS**	Debian, Ubuntu, CentOS, BSD, AIX
Cloud	Salt-Cloud, Linode, GCP, AWS	**Policies**	CIS, SOC2, PCI-DSS, GDPR, ITIL
Languages	Python, Bash, PHP, Perl, VB/C#.Net	**Testing**	Pytest, Docker, CircleCI, Jenkins, Inspec

Experience

Consulting Corp <div align="right">Jul 2015 – Jun 2025</div>
Senior DevOps Engineer (FTE Consultant)

Client: Notable Placement

- Analyzed network traffic patterns to identify bottlenecks and optimize performance
- Implemented firewall rules to enhance network security and prevent unauthorized access
- Conducted regular vulnerability assessments and applied patches to secure systems
- Collaborated with cross-functional teams to streamline IT processes and improve efficiency

Client: Challenges Unlimited

- Configured monitoring tools to track system performance and troubleshoot issues proactively
- Automated routine tasks using scripts to reduce manual effort and increase productivity
- Documented system configurations and procedures for knowledge sharing within the team
- Participated in disaster recovery planning and drills to ensure business continuity in case of emergencies

Client: Broken Galleries

- Implemented cloud migration strategies to move applications to a hybrid environment
- Optimized database performance through indexing and query tuning techniques
- Conducted capacity planning and scalability assessments to support future growth
- Provided on-call support for critical issues and worked on root cause analysis for incident resolution

HealthCo Industries <div align="right">Feb 2011 – Mar 2016</div>
Senior Systems Administrator (SRE)

- Managed virtualized server environment spanning multiple data centers
- Oversaw migration of critical business applications to cloud-based platforms
- Configured and monitored network security measures, including firewalls and intrusion detection systems
- Implemented multi-factor authentication for remote access to company systems
- Streamlined patch management process, reducing vulnerabilities and downtime
- Conducted regular vulnerability assessments and penetration testing
- Automated server provisioning and configuration management tasks
- Maintained documentation for IT policies and procedures
- Coordinated responses to cybersecurity incidents with internal teams and external vendors

Education

State University
Bachelor of Science in Computer Information Systems
Minors: Networking ; Network Security

Certifications

- Salt - SaltStack Certified Engineer
- GCP - Professional Cloud Architect

Projects

Hospital / Health Science IRB <div align="right">Mar 2015 – Present</div>

- Served as non-scientific/unaffiliated patient-representative
- Reviewed patient consent forms for completeness, accuracy, and clarity
- Became familiar with industry standards and regulations (OHRP, HIPAA)

Debian Linux <div align="right">Jan 2001 – Present</div>

- Maintained packages in Debian repositories
- Reviewed and sponsored packages on behalf of prospective Developers
- Resolved bugs reported in bug tracking system
